

PUBLICATIONS 2000 DANS DES REVUES A COMITE DE LECTURE

- * Ancey, C., F. Rapin, E. Martin, C. Coléou, M. Naaim et G. Brunot, 2000 : L'avalanche de Péclerey du 9 février 1999. La Houille Blanche, n° 5, pp 45-53.
- * Ayrault, F., et A. Joly, 2000 : Une nouvelle typologie des dépressions météorologiques : Classification des phases de maturation. Compte-Rendu Académie des Sciences de Paris, Sciences de la Terre et des Planètes, vol 330, pp 167-172.
- * Ayrault, F., et A. Joly, 2000 : L'origine des dépressions météorologiques sur l'Atlantique : nouvelle perspective climatologique. Compte-Rendu Académie des Sciences de Paris, Sciences de la Terre et des Planètes, vol 330, pp 173-178.
- * Baehr, Ch., B. Pouponneau, F. Ayrault, and A. Joly, 2000 : Dynamical characterization of the Fastex cyclogenesis cases. Quaterly Journal Royal Meteorological Society, vol 125, pp 3469-3494.
- * Bénard, P. A.Marki, P.N. Neytchev, and M.T. Prtenjak, 2000 : Stabilisation of non-linear vertical diffusion schemes in the context of NWP models. Monthly Weather Review, vol 128, n° 6, pp 1937-1948.
- * Bergot, T., 2000 : Adaptative observations during Fastex : a systematic survey of the impact of upstream flights. Quaterly Journal of Royal Meteorological Society, vol 125, pp 3271-3298.
- * Berre, L., 2000 : Estimation of synoptic and mesoscale forecast error covariances in a Limited Area Model. Monthly Weather Review, vol 128, pp 644-667.
- * Bechtold, P., J.L. Redelsperger, I. Beau, M. Blackburn, S. Brinkop, J.Y. Grandpeix, A. Grant, D. Gregory, C. Hoff, and E. Loannidou, 2000 : A GCSS model intercomparison for a tropical squall line observed during Toga-Coare. Part II : Intercomparison of SCMs with a CRM . Quarterly Journal of Royal Meteorological Society, n° 126, pp 865-888.
- * Billant, P., and J.M. Chomaz, 2000 : Theoretical analysis of the zigzag instability of a vertical columnar vortex pair in a strongly stratified fluid. Journal of Fluid Mechanics, vol 419, pp 29-63
- * Billant, P., and J.M. Chomaz, 2000 : Experimental evidence for a new instability of a vertical columnar vortex pair in a strongly stratified fluid. Journal of Fluid Mechanics, vol 418, pp 167-188.
- * Billant, P., and J.M. Chomaz, 2000 : Three dimensional stability analysis of a vertical columnar vortex pair in a stratified fluid. Journal of Fluid Mechanics, vol 419, pp 65-91.

- * Bonnier, M., O. Eiff and P. Bonneton, 2000: On the density structure of far-wake vortices in a stratified fluid. *Dynamic Atmospheric Oceans*, vol 31, pp 117-137.
- * Boone, A., V. Masson, T. Meyers, and J. Noilhan, 2000 : The influence of the inclusion of soil freezing on simulations by a soil-vegetation-atmosphere transfer scheme. *Journal of Applied Meteorology*, vol 39, pp 1544-1569.
- * Borel, S., and J.B. Brzoska, 2000 : A method for sectioning natural snow/pavement samples. *Cold Regions Science and Technology*, vol 31, pp 83-93.
- * Bousquet, O., and M. Chong, 2000 : The oceanic mesoscale convective system and associated mesovortex observed on 12 December 1992 during Toga-Coare. *Quarterly Journal of Royal Meteorological Society*, vol 126, pp 189-212.
- * Brenguier, J.L., H. Pawlowska, L. Schueller, R. Preusker, J. Fischer, and Y. Fouquart, 2000 : Radiative properties of boundary layer clouds: droplet effective radius versus number concentration. *Journal of Atmospheric Sciences*, vol 57, pp 803-821.
- * Brenguier, J.L., P. Y. Chuang, Y. Fouquart, D. W. Johnson, F. Parol, H. Pawlowska, J. Pelon, L. Schüller, F. Schröder and J. R. Snider, 2000 : An overview of the Ace-2 Cloudy Column Closure Experiment. *Tellus*, vol 52b, pp 815-827.
- * Calas, C., V. Ducrocq, and S. Sénési, 2000 : Mesoscale analyses and diagnostic parameters for deep convection nowcasting. *Journal of Meteorological Applied Society*, n° 7, pp 145-161.
- * Calvet, J.C., 2000 : Investigating soil and atmospheric plant water stress using physiological and micrometeorological data. *Agricultural and Forest Meteorology*, vol 103, pp 229-247.
- * Calvet, J.C., and J.Noilhan, 2000 : From near-surface to root-zone soil moisture using year-round data. *Journal of Hydrometeorology*, n°1, pp 393-411.
- * Cazenave A., F. Remy, K. Dominh, and H. Douville, 2000 : Global ocean mass variation, continental hydrology and the mass balance of Antarctica ice sheet at seasonal time scale. *Geophysical Research Letter*, vol 27, pp 3755-3758.
- * Chaigne, E., and P. Arbogast, 2000 : Multiple potential vorticity inversions in two Fastex cyclones. *Quarterly Journal of Royal Meteorological Society*, vol 126, pp 1711-1734.
- * Champeaux, J.L., D. Arcos, E. Bazile, D. Giard, J.P. Goutorbe, F. Habets, J. Noilhan, and J.L. Roujean, 2000 : AVHRR-derived vegetation mapping over western europe for use in numerical weather prediction models. *International Journal of Remote Sensing (édition spéciale)*, vol 21, n° 6 & 7, pp 1183-1199.
- * Chong, M., and S. Cosma, 2000 : A formulation of the continuity equation of Muscat for either flat or complex terrain. *Journal of Atmospheric and Oceanic Technology*, n° 17, pp 1556-1564.

- * Chong, M., and co-authors, 2000 : Real-time wind synthesis from Doppler radar observations during the Mesoscale Alpine Programme. Bulletin of the American Meteorological Society, vol 81, pp 2953-2962.
- * Crossley, J.F., J. Polcher, P. Cox, N. Gedney, and S. Planton, 2000 : Uncertainties linked to land surface processes in climate change simulations. Climate Dynamics, vol 16, pp 949-961.
- * Cruette, D., A. Marillier, J.L. Dufresne, J.Y. Grandpeix, P. Nacass, and H. Bellec, 2000 : Fast Temperature and True Air Speed Measurements with the Airborne Ultrasonic Anemometer Thermometer (AUSAT). Journal of Atmospheric and Oceanic Technology, Vol 17, Août 2000, pp 1020-1039.
- * Cuxart, J., P. Bougeault, and J.L. Redelsperger, 2000 : A multiscale turbulence scheme apt for LES and mesoscale modelling. Quarterly Journal of Royal Meteorological Society, vol 126, pp 1-30.
- * Dabas, A., P. Drobinski, and P.H. Flamant, 2000 : Velocity biases of adaptive filter estimates in heterodyne Doppler lidar measurements. Journal of Atmospheric and Oceanic Technology, 17, 1189-1202, Septembre 2000.
- * Delon, C., Druilhet, F. Lohou, and P. Durand, 2000 : Turbulent and dynamic characteristics of the lower troposphere above rain forest and wet savanna during the Expresso campaign. Journal of Geophysical Research, vol 105, n° D11, pp 14823-14840.
- * Desroziers, G., B. Pouponneau, J.N. Thépaut, M. Janisková, and F. Veersé, 2000 : Four dimensional variational analyses of Fastex situations using special observations. Quarterly Journal of Royal Meteorological Society, vol 125, pp 3339-3358.
- * Doblas-Reyes F.J., M. Déqué, and J.Ph. Piedelièvre, 2000 : Model and multimodel spread in the Provoost seasonal forecasts : application to probabilistic forecasts. Quarterly Journal of Royal Meteorological Society, vol 126, pp 2069-2087 .
- * Douville, H., P. Viterbo, J.F. Mahfouf, and A.C.M. Beljaars, 2000 : Validation of the optimum interpolation technique for sequential soil moisture analysis using Fife data. Monthly Weather Review, vol 128, pp 1733-1756.
- * Douville, H., S. Planton., J.F. Royer , D.B. Stephenson, S. Tyteca, L. Kergoat, S. Lafont, and R.A. Betts, 2000 : importance of vegetation feedbacks in doubled-CO2 climate experiments. Journal of Geophysical Research, vol 105, n° D11, pages 14-841-14861.
- * Douville, H., and F. Chauvin, 2000 : Relevance of soil moisture for seasonal climate predictions : a preliminary study. Climate Dynamics, vol 16, pp 719-736.
- * Douville, H., J.F. Royer, J. Polcher, P. Cox, N. Gedney, D.B. Stephenson and P.J. Valdes, 2000 : Impact of CO2 doubling on the asian summer monsoon : robust

versus model dependent responses. Journal of the Meteorological Society of Japan, vol 78, n° 4, pp 421-439.

* Ducrocq, V., J.P. Lafore, J.L. Redelsperger, and F. Orain, 2000 : Initialization of a fine scale model for convective system prediction : A Case Study. Quarterly Journal of Royal Meteorological Society, n° 126, pp 3041-3066.

* Durand, P., F. Thoumieux, and D. Lambert, 2000 : Turbulent length scales in the marine atmospheric mixed layer. Quarterly Journal of Royal Meteorological Society, vol 126, pp 1889-1912.

* Durand, Y., G. Guyomarc'h et L. Mérindol, 2000 : Transport de la neige par le vent sur un site de montagne : mesures et modélisation numérique à l'échelle du massif. La Houille Blanche, n° 5, pp 55-62.

* Eiff, O., and P. Bonneton, 2000 : Lee-wave breaking over obstacles in stratified flows. Physics of Fluids, vol 12, pp 1073-1086.

* Favreau, X., A. Delaval, P. H. Flamant, A. Dabas, and P. Delville, 2000 : Four-element receiver for pulsed 10-mm heterodyne Doppler Lidar. Applied Optics, 39, 2441-2448, Mai 2000.

* Fily, M., J.P. Dedieu, Y. Durand, and C. Sergent, 2000 : Remote sensing of snow in the solar spectrum : experiments in the French Alps. Defense Science Journal, vol 50, n° 2, pp 217-229.

* Fourrié, N., C. Claud, J. Donnadille, J.P. Cammas, B. Pouponneau, and N. Scott, 2000 : Use of TOVS observations for the identification of tropopause-level thermal anomalies. Quarterly Journal of Royal Meteorological Society, vol 126, pp 1473-1494.

* Gedney N., P.M. Cox, H. Douville, J. Polcher and P.J. Valdes, 2000 : Characterising GCM land surface schemes to understand their responses to climate change. Journal of Climate, 13:3066-3079.

* Georgelin, M., P. Bougeault, T. Black, N. Brzovic, A. Buzzi, J. Calvo, V. Cassé, M. Desgagné, R. El-Khatib, J.F. Geleyn, T. Holt, Song You Hong, T. Kato, J. Katzfey, K. Kurihara, B. Lacroix, F. Lalaurette, Y. Lemaitre, J. Mailhot, D. Majewskia, P. Malguzzi, V. Masson, J. McGregor, E. Minguzzi, T. Paccagnella, and C. Wilson, 2000 : The second compare exercise : a model intercomparison using a case of a typical mesoscale orographic flow, the Pyrex IOP3. Quarterly Journal of Royal Meteorological Society, vol 126, n° 564, Part A, pp 991-1029.

* Gheusi, F., J. Stein, and O. Eiff, 2000 : A numerical study of three-dimensional orographic gravity wave breaking observed in a hydraulic tank. Journal of Fluid Mechanics, vol 410, pp 67-99.

* Giard, D., and E. Bazile, 2000 : Implementation of a new assimilation scheme for soil and surface variables in a global NWP model. Monthly Weather Review, vol 128, n°4, pp 997-1015.

- * Giordani, H., and S. Planton, 2000: Modeling and analysis of ageostrophic circulation over the Azores oceanic front during the Semaphore experiment. *Monthly Weather Review*, vol 128, pp 2270-2287.
- * Gröbner, J., A. Abold, M. Blumthaler, T. Cabot, A. De La Casiniere, J. Lenoble, T. Martin, D. Masserot, M. Müller, R. Philipona, T. Pichler, E. Pougatch, G. Rengarajan, D. Schucki, G. Seckmeyer, C. Sergent, M.L. Toure, and P. Weihs, 2000 : Variability of spectral solar ultraviolet irradiance in an Alpine environment. *Journal of Geophysical Research*, Vol 105, N° D22, pp. 26991-27003.
- * Guichard, F., J.L. Redelsperger, and J.P. Lafore, 2000 : Cloud-resolving simulations of convective activity during Toga-Coare : sensitivity to external sources of uncertainty. *Quarterly Journal of Royal Meteorological Society*, n° 126, pp 3067-3096.
- * Guichard, F., D. Parsons, and Miller E., 2000 : Thermodynamical and radiative impact of the correction of sounding humidity bias in the tropics. *Journal of Climate*, n°13 pp. 3611-3624.
- * Hello, G., F. Lalaurette, and J.N. Thépaut, 2000 : Combined use of sensitivity information and observations to improve meteorological forecast : feasibility study applied to the Christmas storm case. *Quarterly Journal of Royal Meteorological Society*, vol 126, part B, n° 563, pp 621-647.
- * Kastendeutsch, P., P. Lacarrère, G. Najjar, J. Noilhan, F. Grassmann, and P. Paul, 2000 : Mesoscale simulations of thermodynamic fluxes over complex terrain. *International Journal of Climatology*, n° 20, pp 1249-1264.
- * Klinker, E., F. Rabier, G. Kelly and J.F. Mahfouf, 2000 : The ECMWF operational implementation of four dimensional variational assimilation. Part. III : experimental results and diagnostics with operational configuration. *Quarterly Journal of Royal Meteorological Society*, vol 126, pp 1191-1215.
- * Koffi, E., M. Georgelin, B. Benech, and E. Richard, 2000 : Trapped lee waves observed during Pyrex by constant volume balloons : comparison with Meso-NH simulations. *Journal of Atmospheric Sciences*, n° 57, pp 2007-2021.
- * Lacaze, R., and J.L. Roujean, 2000 : G-function and Hot Spot (Ghost) reflectance model for upscaling issues : Application to airborne Polder data. *Remote Sensing Environment*, n° 76, pp 1-14.
- * Lohou, F., A. Druilhet, B. Campistron, J.L. Redelsperger, and F. Saïd, 2000 : Numerical study of the impact of coherent or organized structures on vertical transfers in the atmospheric boundary layer. *Boundary Layer Meteorology*, n° 97, pp 361-383.
- * Lucht, W., and J.L. Roujean, 2000 : Considerations on the parametric modeling of BRDF and Albedo from multi-angular satellite sensor observations. *Remote Sensing Reviews*, n° 18, pp 343-379.
